

SOL DATEM 400

DESCRIPTION

It is diacetyl tartaric acid esters of mono and di glycerides made from fully hardened palm oil. Specially designed for the biscuit and bread industry.

PHYSICAL/CHEMICAL SPECIFICATION

Color: White to Off White

Composition: 80% Datem: 20% Calcium Carbonate

State: Powder

Acid Value: 60 to 80 mgKoh/g

Saponification Value: 380 to 425 mgKoh/g

Iodine Value: 2 max

HEAVY METALS/MICROBIOLOGICAL PARAMETERS

Arsenic: Less than 3mg/kg

Lead: Less than 1mg/kg

Mercury: Less than 1mg/kg

Cadmium: Less than 1mg/kg

Heavy Metals: Max. 10mg/kg

APPLICATION AREAS

ALL kinds of biscuits and breads.

STORAGE/SHELF LIFE

To be stored in cool temp. below 20° C.(Ma. 80% Relative Humidity). Best before 2 year from the date of Manufacturing.

PACKING

20 Kg corrugated box
